<b>POINT STYLE</b>	40 degree diamond
<b>APPROX. NAILS PER LB</b>	265.0

#### Product Description

These slender, blunt-pointed wood siding nails are made from high tensile Type 316 Stainless Steel to minimize bending and reduce splitting. Type 316 Stainless Steel is recommended for coastal applications. Excellent for redwood and cedar siding, especially on wood to be left natural or to receive treatment with semi-transparent coatings or clear finishes (to give the "natural" look). Small head can be countersunk. Also available from stock-painted in cedar/redwood color.

Disclaimer: This image represents an entire series of nails, so the length may not be the exact match to the nail in this spec sheet
