<b>COATING</b>	Double Hot-Dip Galvanized
<b>APPROX. NAILS PER LB</b>	72.0

#### Product Description

These extra-long "Asphalt Shingle Nails" are designed for the application of structural roof deck to wood trusses or rafters. Also great for application of shingles over rigid foam insulation into roof decking and for the installation of "ridge vents". Large heads prevent pull-through. Ring shanks provide exceptional holding power. Also popular for the application of fence panels. STORMGUARD® Double-dipped in molten zinc.
