LOCATION

# FUNNEL-CEPTOR® INDIRECT WASTE DRAINS

## WITH ROUND TOPS

### MEDIUM DUTY GRATE WITH OVAL FUNNEL

**FUNCTION:** Used to receive the drip, condensate or waste water from indirect waste lines. The funnel prevents splashing and directs the waste into the drain. The exposed portion of grate serves as drain for any other waste on the floor. The funnel is attached to the grate by means of concealed screws and it may be moved to any grate location desired. The oval funnel is ideal for multiple pipe use while the adjustable top permits accurate positioning of the grate, as necessary, to meet the finished floor level.
